

## UTAH 3809 COMPLIANCE INSPECTION REPORT

*Contract:* U-78933

*Field Office:* UTC030

*Operator(s):* Color Country Rock – Jeff and Legrand Fawcett

*Project name:* Liesegang Quarry

*Location:* T39S R19W Sec 15 NWSE

*Disturbance:* Operator completed earthwork reclamation and seeded the upper open-cut 50 ft long by 10 ft wide in the Tertiary Claron Formation. The lower cut is along the road in the wash and no reclamation work is required. The open-cut exposed altered and liesegang banded silty limestones. The total disturbance is less than 2 acres and the access road has re-vegetation dominated by matchweed.

*Hazardous Materials on Site:* None/The site is stable and fairly clean.

*Comments:* Check with UDOGM on reclamation.

*Instructions to Operator:* None

*Recommended Action(s):* Continue to monitor

*Photographs Taken:* See Photographs below.

View of upper part of the access road next to the upper open-cut, showing re-vegetation that is dominated by match weed, sage, and cheat grass.

View of the reclaimed upper open-cut looking down toward the wash below.

View of the reclaimed upper open-cut looking up from the road/wash.

Russell Schreiner  
Inspector: Russell Schreiner

*Date of Inspection:* November 23, 2010
